Does your cat go outside? ☐ Yes ☐ No ☐ N/A

**Client Initials:** \_\_\_\_\_ In case of emergency, illness, or injury, the doctors of Brookstone Animal Hospital have my permission to treat, prescribe for, or perform surgical procedures upon my pet(s) while boarding at Brookstone Animal Hospital. There will be an exam fee associated with this service along with the cost of treatment. We will make all attempts necessary to contact you should any problem with your pet(s) arise.

**Consent for CPR while boarding:**

If life-threatening complications such as respiratory and/or cardiac arrest occur while my pet is boarding, the staff at Brookstone Animal Hospital can perform cardiopulmonary resuscitation (CPR). If my pet stops breathing or its heart stops beating, I realize even the most successful CPR may not restore him/her to good mental and physical health. I am aware that the practice of veterinary medicine is not an exact science and, thus, there are no guarantees for successful treatment. Despite the limited likelihood of success from CPR treatment, I accept that such care brings with it considerable expense. By initialing one of the following choices, I hereby request:

I accept that if hospital staff members are unable to reach me within 20 minutes after the initiation of CPR, and after administering reasonable treatment and there appears to be virtually no hope for medical success, CPR will be withdrawn and my pet will be humanely euthanized. I am providing the hospital with phone numbers (listed above on this form) at which I can be reached in case of a decline in his/her condition.

- ☐ Yes, perform CPR on my pet if the doctor deems it necessary (\$100 service charge)
- ☐ No, do not attempt to resuscitate my pet

I understand the cost of the medical services discussed with me and agree to make satisfactory arrangements to cover all outstanding veterinary fees at the time my pet is either discharged from the hospital, transferred to another facility, dies or is humanely euthanized.

**I have read the boarding requirements and understand the hospital's policies**
